**\*\*Please note that this image is NOT included in this resource. It is a way of showing you how to fold and use this resource**

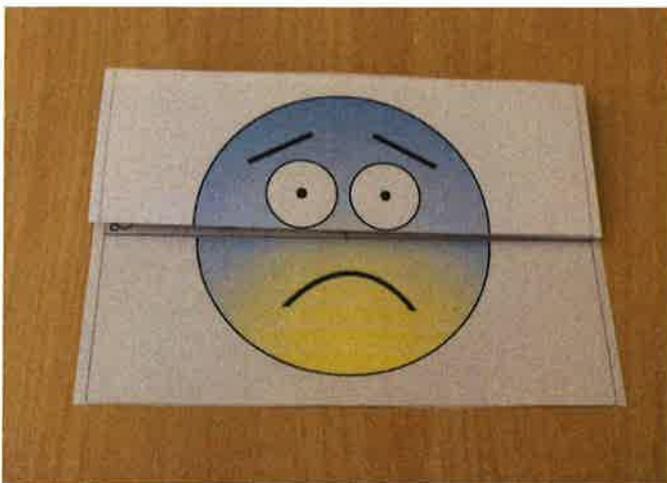

Trim the margins from the top and the bottom of the page. This is so your folding will be equal and correspond with the lines drawn. The face will then match up correctly.

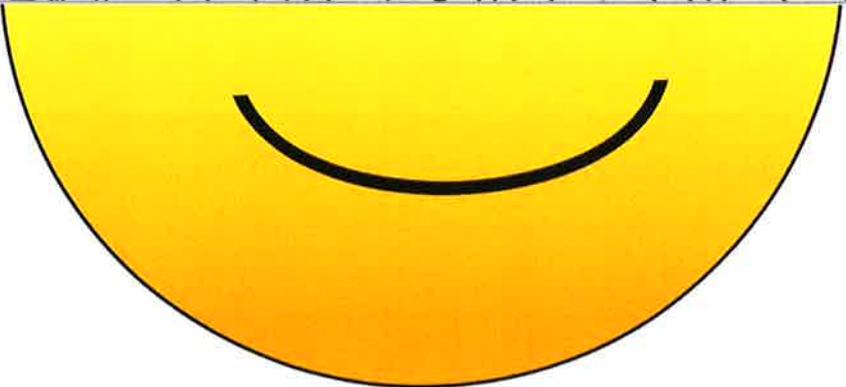

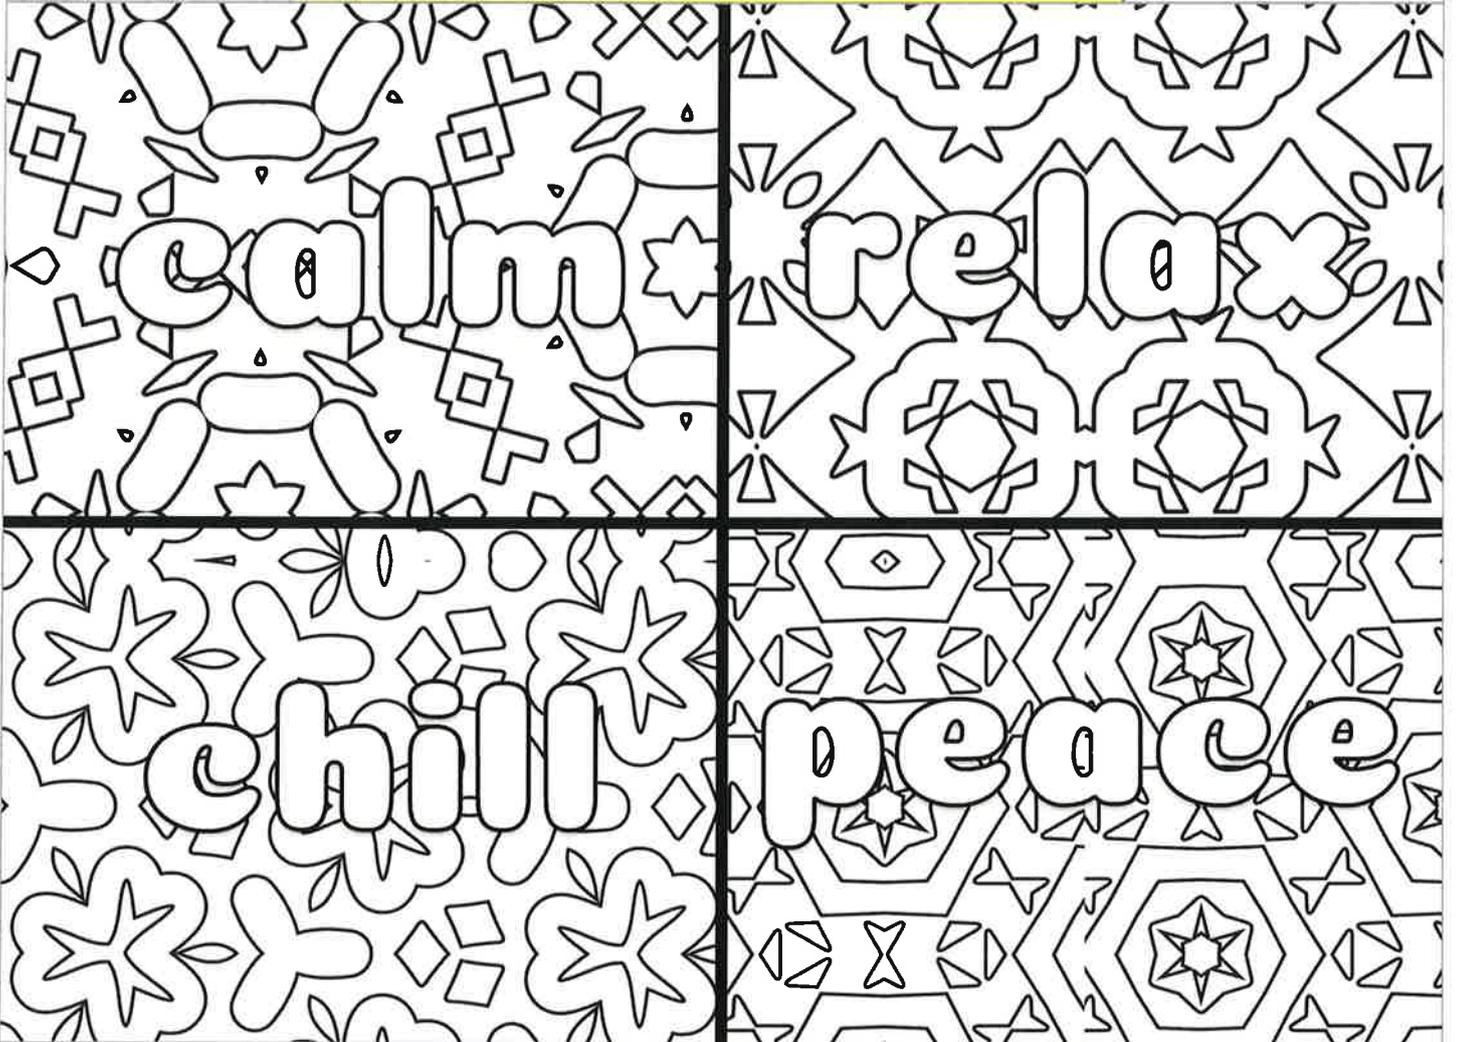

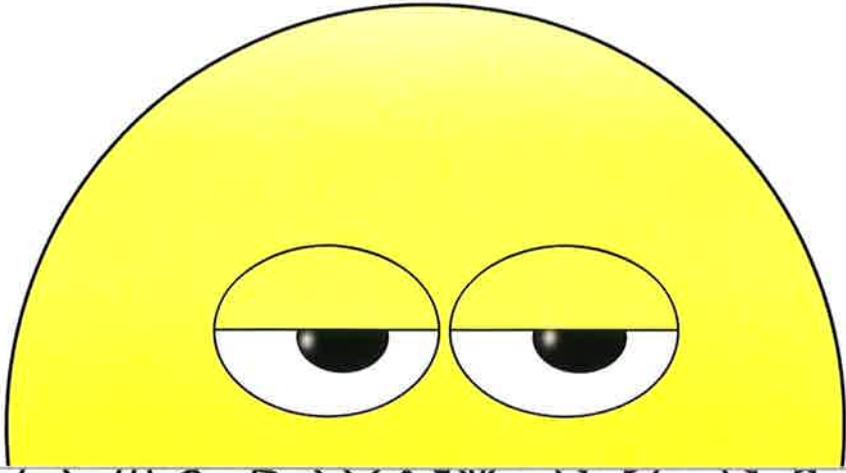

Take the top of the piece of paper and just fold downwards in half. The image will be on the inside.

Fold the bottom quarter upwards

You have your foldable ready to use.

# Mindfulness Rainbow Walk

Go for a walk with your children and be mindful of all the beautiful colours you can see. Get them to write what they see in each colour of the rainbow. They might see several things that are red, yellow, blue, green and orange.

The aim of the session is to use their power of sight to notice things around them right now in the present moment.

When they have written the things in the rainbow they can carefully colour their rainbows with coloured pencils so as not to hide the writing. There is a copy with and without the bee depending on the age of the pupils you are working with.

For more resources on Mindfulness check out Bee Linda Bee's Mindfulness workbook. Click the picture to take you there. You can download the story for free!

# 20 FACES

20 faces all individual, all different, all with different facial expressions. This exercise is great for thinking skills as well as the following...

## Potential Learning objectives:

- I can understand how everyone feels different emotions.
- I can understand that we are all different
- I can identify the emotions I have drawn
- I can tell you about a time when I felt each emotion
- I can explain how I might help someone who is experiencing a negative emotion
- I can make each facial expression

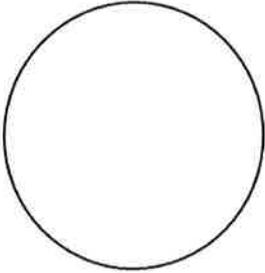

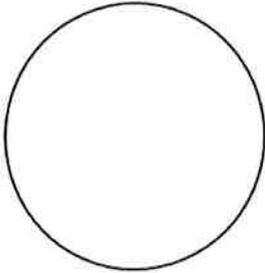

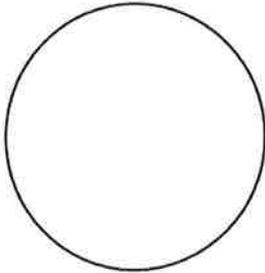

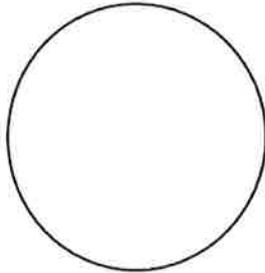

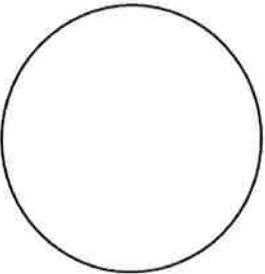

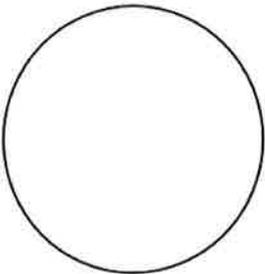

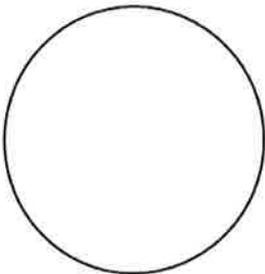

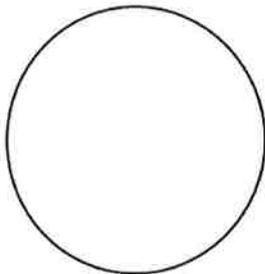

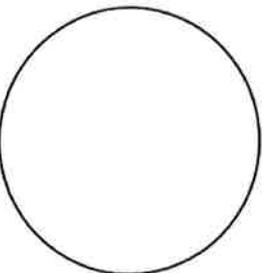

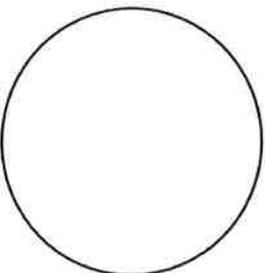

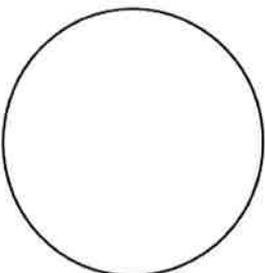

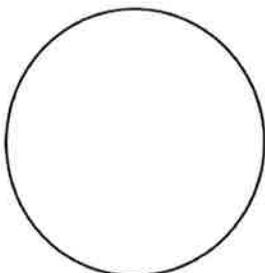

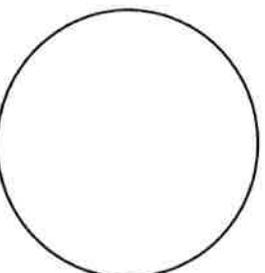

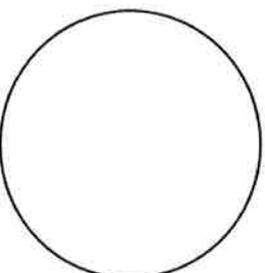

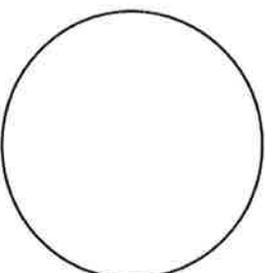

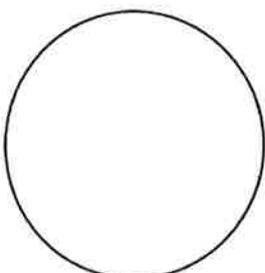

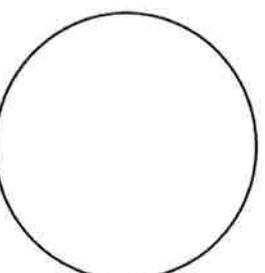

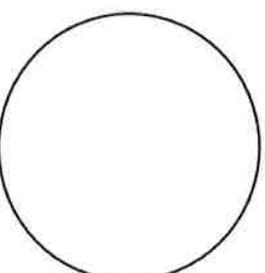

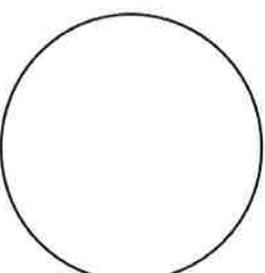

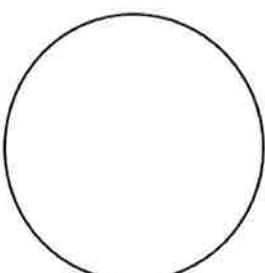

Present the sheet to the children and consider some of these suggestions

1. Pupils can give each face a different expression
2. Pupils can colour in the different faces in different colours to represent difference in skin tones.
3. Pupils can see visually how we are all different. Different appearances, different expressions. Discuss difference.
4. Pupils can identify the feelings of each individual face
5. Pupils can talk about a time when they might have felt this emotion
6. Pupils can explain how they would help each face showing a negative emotion
7. Pupils can use a mirror to make each expression themselves.
8. Pupils can fill this in over a few sessions as a warm up. One face at a time.
9. Pupils could choose one of the faces and draw the body language to match
10. Pupils could choose one of the faces, draw the body and draw a thinking bubble. What might that person be thinking?
